THE CRUMP TIMES

SPREADING THE WORD - spring edition

Crump Takes Flight

Our resident company pilot took some local Crump customers for a fly over their properties over the past couple of weeks. Below are some of their happy snaps and an aerial look at our local area.

Main picture: Goombargana NSW
Inserts (top to btm) : Kiewa Valley Vic,
Bowna Reserve NSW, our Pilot.

Product Improvements

As you know, we are in the process of re-building the Crump brand and have now incorporated options including *Galvanised Frames* which our coastal customers are quite fond of. We also have reintroduced the *Hydraulic Option* with new and improved efficiencies. Not wanting to let any opportunities pass us by, we are now in the development phase of providing road-registered versions.

We are working with one of our agents so that their customers are able to legally tow their machines along roads and highways.

Above is the prototype model wearing their company colours. Yours on the other hand will be the traditional silver finish, or galvanised frame. It comes complete with mudguards, brakes, lights and all the safety features you expect.

Drive Away - No More To Pay!

Update on Irene

Over the last few months we have been directly involved in helping one of our Crump families in raising funds for much needed treatment to help overcome MS and its debilitating consequences. Along with the assistance of friends, the local community and the kindness of complete strangers, thanks must also

go to the generosity of our Crump employees, customers, agents and suppliers that allowed this milestone to be achieved. Irene is currently receiving the treatment she so desperately needed and we will keep you informed of her progress.

Thank YOU for your generosity!!!!

FIELD DAY SEASON

It's that time of year again...

And we are off to the Field Days - hope to see you there!! The Henty Machinery Field Days (23-25 September) are shaping up to be another big event - it's our opportunity to catch up with all our local customers, agents and suppliers. Call in and say hello...

Then we are off to the Australian National Field Days in Orange (23-25 October).

Pssssttttt: Don't forget to do a bit of preventative maintenance on your Crump Spreader. It doesn't take long!!!! Call us if you need any spares...
